

Kindergarten Weekly

Week of October 11-14, 2016

Language Arts/Reading: Learning the high frequency popcorn word "a" and reading popcorn word book, A Walk.

How to help: Just an FYI, at school we watch a DVD called, Heidi Songs Sing and Spell Custom Music DVD. McGraw-Hill Reading Wonders. The DVD has a song for every one of the 40 popcorn words your child will learn this year in kindergarten. Every time we learn a new word we sing a new song. The DVD is available for purchase at HeidiSongs.com. Please do not feel obligated in any way to purchase this...just passing along some information.

Math: Graphing - which is basically sorting in a more organized fashion so that students can learn to interpret information (focusing on words more and less).

How to help: For some fun graphing worksheets that your child might enjoy go to www.education.com/worksheets/kindergarten/graphing/
They are free☺

Science: Nature center field trips to look for signs of Fall. Miss Schaschwary's classes will be going on Tuesday, October 11th and Mrs. Suptela's classes will be going on Wednesday, October 12th. If we have inclement weather the field trips will be cancelled and we will just proceed with a regular day of school. Chaperones will be called.

Other: No school Monday, October 10th - Columbus Day! Please remember to empty your child's folder on a daily basis. We want to make sure you get information in a timely manner as well as making sure your child has a clear understanding each day of what to take out and give to the teacher and what needs to go home.
